EDUCATION

Bharati Vidyapeeth(DU) Department of Engineering and Technology
B.Tech in Computer Science and Engineering - CGPA - 8.78
Sureshwari Devi+2 H/S Naviganj
12th PCM - 71.2 %

Nov 2020 - June 2024
Mumbai, Maharashtra
April 2018 - May 2020
Chapra, Bihar

Experience

Freelance / Independent Developer
Software Developer

March 2024 - Present

- Developed scalable web applications using Python, Flask, JavaScript, SQL, and RESTful APIs.
- Designed and integrated RESTful APIs, enabling efficient communication between application layers.
- Optimized database performance through efficient query design, data modeling, and backend enhancements.
- Collaborated across the software development lifecycle, delivering high-quality solutions through testing, debugging, and performance optimization.

PROJECTS

Rock Singer Portfolio Website (In Progress) | React.js, Node.js, Express.js, MongoDB

- Developed a full-stack event booking and portfolio platform using React.js, Node.js, Express.js, and MongoDB, providing a responsive and user-friendly experience.
- Designed and implemented reusable React components, dynamic routing, and interactive UI sections including Gallery, Videos, Reviews, Services, and Contact pages.
- Built RESTful APIs and integrated MongoDB for managing event bookings, contact inquiries, user reviews, and dynamic content efficiently.
- Implemented responsive design principles, optimized frontend-backend communication, and structured scalable code architecture for maintainability and performance.

Grocery Store App | Flask, Flask-RESTful, Flask-SQLAlchemy, SQLite3

- Built a Flask web app allowing users to add products and admins to manage them.
- Utilized SQLite3 and Flask-SQLAlchemy to optimize queries, improving performance.
- Implemented a secure login system with Flask sessions, reducing authentication errors.
- Developed a RESTful API using Flask-RESTful to facilitate CRUD operations on product data.

Skill Sync | Java, Android Studio, SQLite

- Developed an Android app for students to take quizzes, receive course recommendations, and connect with alumni.
- Integrated SQLite for local database management, ensuring efficient data storage and retrieval.
- Implemented RecyclerView for efficient display and management of dynamic content.
- Designed intuitive user interfaces using XML to enhance user experience.

ATM Management System | Java, MongoDB, Flask, SQLAlchemy

- Implemented user authentication, account management, and transaction processing.
- Added security measures like PIN validation for secure access.
- Developed robust error handling to enhance system stability and reliability.

TECHNICAL SKILLS

C++, Python, Java, SQL, Git/Github, API, Flask, OOPS, OS, DBMS, HTML, CSS, Javascript, MongoDB, Postman, SDLC

ACHIEVEMENTS

Data Structure and Algorithms

- Solved 250+ coding problems across LeetCode, CodeChef, and Codeforces covering DSA, OOP, and SQL.

Certificates

- Machine Learning for All, from Coursera, showcasing expertise in **Machine Learning**.
- Problem Solving, Python Programing, and video game from Coursera, showcasing expertise in **Python**.
